FARMHOUSE WALL

If you can dream it, Farmhouse Wall stone can make that dream a reality. The endless possibilities that Farmhouse Wall offers are simply mind boggling. Build fire pits, benches, pillars, planters, freestanding walls and outdoor kitchens in all shapes and sizes. The options are endless.

The character that Farmhouse Wall brings to your natural outdoor living space reflects the time honored tradition of building with stone. It's 1 block set and 4 possible configurations (including the option of using it as a cap) set this product apart from the rest. Each Farmhouse Wall stone is barrel spun tumbled. This proprietary process developed by Gagne & Son brings out the best of its character and beauty.
