

Efflorescence Cleaner

For concrete pavers & natural stones

5 US GAL. / 18.9 L.

SEE APPLICATION VIDEO
ON ALLIANCEGATOR.COM

1 US GAL. / 3.78 L.

FEATURES

- Dislodges efflorescence and encrusted dirt from the surface of concrete pavers and natural stones
- Recommended prior to sealant application
- Does not contain muriatic acid

DESCRIPTION

Gator Clean Efflorescence Cleaner eliminates the spots caused by efflorescence caught in the concrete pavers and natural stone pores. It will make the pavers look cleaner and more vibrant. The efflorescence cleaning is a necessary step before a sealer is applied. Cleaning will permit a better penetration into the pores when sealing.
