

# Rigid & Flex

SEE APPLICATION VIDEO  
ON ALLIANCEGATOR.COM

## FEATURES

- The Flex can connect to the Rigid
- Uses a "Twist & Lock" connection system
- Will not corrode
- Easy-to-use
- Available in flexible or rigid edges
- Comes in 8-ft lengths
- Use with Gator Nails
- Xtra versatile
- Xtra robust system
- Xtra support strength

## DESCRIPTION

Gator Edge is made with 100% Polypropylene Co-Polymer. This will give it great strength as well as providing greater flexibility. We have a Rigid model which is ideal for straight applications and have a Flex model that can be used for all curved applications such as walkways, paths, entrances etc. Both the Rigid and Flex can be locked together with the "Twist & Lock" connection system.

## STRONG LATERAL SUPPORT

A triangular angle at all key points has been engineered to provide a strong lateral support, essential for the load transfer on the paving units. Rigid can be modified into a Flex by simply cutting the connector between each triangular angle.

## Gator Nails

10", 12" bright common or spiral metal nails used with Gator Edges.

## Packaging

- 190 nails /10" common per box
- 48 boxes per pallet
