

ARBOR STONE

This compact, lightweight garden wall makes any homeowner feel like a contractor. The curved face of Arbor Stone creates a look all its own. Arbor Stone's secure, interlocking design makes installation easy. No special tools are required.

Arbor Stone is made of high-strength, low-absorption concrete to provide permanent, environmentally safe walls that are virtually maintenance free. Transform your yard with planters, tree rings, and small retaining walls - all built with this stunning product. With 3 colors to choose from Arbor Stone will certainly accent and bring beauty to your home.
