

COLONIAL EDGING

Edging can classically define a lawn, garden plot or flower bed. It essentially puts a formal frame or border around the edge of the area. Gagne & Son Colonial Edging has a split face surface and is available in Fieldstone Blend, Granite Hill Blend and Old Port Blend. These carefully blended color options add style to ornamental flower gardens, vegetable gardens, driveways, patios and walkways. The quality of this product sets it apart from the rest.

Edging is essential for the preservation of any paved patio, garden bedding, driveway or walkway. The quality of Colonial Edging from Gagne & Son is simply the best edging product in the state of Maine.
