

# VINTAGE EDGING

Wealthy 17th century English landowners embraced lawns as residential features and landscape designers embraced edging to define those lawns. Ironically, the techniques they developed for maintaining a perfect edging are still used today. Gagne & Son Vintage Edging carries on the tradition with a rich vintage color selection that includes Fieldstone Blend, Granite Hill Blend and Old Port Blend. These carefully blended color combinations add a vintage feel to flower gardens, vegetable gardens, driveways, patios and walkways.

Gagne & Son Vintage Edging is manufactured in the state of Maine with extraordinary attention to detail. Under the watchful guidance of the Gagne family all products are designed to complement the style and color scheme of any home.

# LIFETIME WARRANTY

Gagne & Son supports our "Made In Maine" concrete pavers and retaining walls with a Lifetime Warranty on the structural integrity of our product used in a residential setting. Material that is deemed defective will be replaced at no cost, labor will not be included. Gagne & Son has worked hard to provide uniform product, but color, texture, and finish of the replacement product may not match the original product. Proof of purchase is required. All warranty claims must be approved prior to removal and disposal of the product in question.

\*\*Please note efflorescence and color variance are not a valid warranty claim.
